

Beaches Pediatrics, PA

General Office and Financial Policies—rev. 3/9/15

INTRODUCTION

Beaches Pediatrics is an old-fashioned Pediatric practice that values individualized care but uses the most up-to-date technology. Dr. Cooper opened the practice over 9 years ago to make sure that each child and the entire family could be taken care of in a homey atmosphere. Her slogan "Your Family is Our Family" is a reflection of her caring attitude.

When your child is ill, he or she will be seen the same day! If it is an urgent matter, your child will be fit into the schedule immediately so that you do not need to use the emergency room for non-emergency problems.

We look forward to meeting your family!

This document contains important information about our professional services and business policies. Please read it carefully and discuss any questions you may have at your next scheduled appointment. By signing that you have read this document, you establish an agreement between the patient and/or the patient's representative (hereinafter termed "you") and Beaches Pediatrics, PA (hereinafter termed "Beaches Pediatrics", "we" or "us").

DURATION AND NATURE OF TREATMENT

Pediatric medicine typically involves both "well" visits and sick visits. Well visits generally involve scheduled times where the pediatrician can review your child's overall development, including growth, developmental milestones, school progress, psychological screening and a full physical examination. These visits tend to take an extended time and you should anticipate being in the office for at least one hour to an hour and a half. Routine "sick" visits are generally shorter visits to diagnose and treat acute illnesses or recheck children after an acute illness. These visits tend to take approximately 30 minutes with the nursing staff and physician. Complex "sick" visits are longer visits that we schedule to diagnose and treat chronic problems or more complex issues.

The time for all pediatric visits will vary depending on the individual child and problem. Unlike adults, we cannot always accurately predict the time that a visit will take. Moreover, we will

always "fit in" an urgent situation. Therefore, especially during the winter months, you should always anticipate being at the office for at least one hour. We try very hard to stay on a schedule, but one emergency, or one particularly sick child can change the entire day!

You must come to your appointments to receive proper care. You are responsible for making and keeping your appointments. We will accommodate school and work demands by providing documentation as needed.

If you miss a scheduled appointment and are otherwise in good standing in this practice, we will reschedule you on a space-available basis. If you have a pattern of missing appointments, we may request that you find other pediatric care for your child. In some cases, you may request to return to Beaches Pediatrics at a later date.

CONFIDENTIALITY

All medical information about your child and his/her treatment is confidential and will not be disclosed to anyone without your written consent, EXCEPT:

1. If the physician believes your child is a clear and imminent danger to him/herself or to another person;
2. If a person under 18 is being physically, emotionally, or sexually abused by another person;
3. If a court subpoenas the physician, or your records;
4. If an insurance company paying for your treatment requires information about diagnosis or treatment;
5. If information in your records is necessary for emergency medical care (e.g., you are being treated in a hospital emergency room and the treating physician needs information from Beaches Pediatrics)
6. To discuss your child with another of his/her medical caregivers (including therapists and psychiatrists)
7. Otherwise as provided by the HIPPA regulations and Florida laws.

YOUR RIGHTS TO YOUR RECORDS

You are entitled to a copy of your records, or a summary thereof. However, if your physician feels that access to those records would be emotionally damaging to you, we may decline to provide these records in accordance with the law. We recommend that you review your records with a physician who can clarify any information you might not readily understand. We will furnish your records to a physician of your choice. Patients will be charged an appropriate fee for copies of records.

OFFICE HOURS and AFTER HOURS POLICY

If you feel your child is having a life-threatening medical problem at any time, call 911 before contacting us!!

Regular office hours are Monday through Friday 8:15 a.m. to 5:30 p.m. with extended hours offered as the need arises. There is always a doctor available with whom to speak if your child has an urgent medical problem after hours that you feel cannot wait until the next business day. If the doctor on call has not responded within 20 minutes after you have called, please call back and let the service know. We strive to answer calls promptly, but occasional service/phone malfunctions may prevent your message from reaching us! If you have a non-emergent question, feel free to use the patient portal. Please do not use the portal if you need a response quickly!!

CONTACTING US

ALWAYS REMEMBER: If you have a potentially life-threatening emergency and need help NOW, CALL 911 or GO TO THE CLOSEST EMERGENCY ROOM IMMEDIATELY. You can contact one of our physicians once the situation is stabilized.

For situations that can be handled by telephone, you may call the office during hours listed above and speak to a staff member. The physicians are usually with patients during business hours and may not be able to take your call immediately, so be prepared to leave a detailed message and one of the nursing staff will call you back. The details you provide are crucial to obtaining a prompt and accurate response from us. Urgent matters are handled first. Nonspecific messages, such as those requesting a call back with no further details, are likely to be considered less urgent. If you would like to speak with the physician, let the nursing staff know and a physician will return your call within 24 hours.

If you need to speak with a physician urgently after office hours, you may call the regular office number. The after hours service is provided for **urgent matters** only! Please call during regular business hours for medication dosing questions, refills, appointment scheduling, and the like. If you feel that your child needs immediate attention, go to the Emergency Room at Wolfson Children's Hospital, which has pediatric emergency specialists available 24/7.

SOCIAL MEDIA POLICY

Our website, Facebook site, Pinterest, Twitter, Google +, and LinkedIN sites are for general informational purposes only. Any information on those sites, including medical opinions and any other health-related material is for informational purposes only. It should not be considered to be specific diagnostic information or a treatment plan for any individual situation. Use of these sites and the information contained therein does not create a doctor-patient relationship. Always seek the direct advice of your child's physician, either by phone or at the office, in connection with any questions or issues you might have regarding your child's health.

APPOINTMENTS

Your appointment time is scheduled only for you. There is no "double booking". If you cancel your appointment with at least 24 hours' notice, we can give that appointment to someone else. If you cancel with less than 24 hours' notice, that appointment time is considered lost.

If you arrive for your appointment and find that the physician is running late, we apologize for the inconvenience. In most cases, the delay results from an emergency involving another patient or family, and the doctor needs extra time to handle the situation. Should you have a similar emergency one day, we will do the same for you. If your wait will be more than a few minutes, we will inform you as promptly as possible and offer to reschedule your appointment. If you choose to wait, be assured you will receive the same careful attention as always during your appointment.

REFERRALS

If your child needs to be seen by a specialist and your insurance company requires a referral, we will obtain the referral for you. This referral can take up to 72 hours to obtain. It is your responsibility to be sure that the specialist with whom you make an appointment is on your insurance plan. Beaches Pediatrics is not responsible for assuring that a specialist is on your plan. There may be a charge for the time it takes to obtain a referral authorization.

MINORS

A parent or guardian must accompany any child under the age of 18 who is seen in our office. Other adult caretakers must have a signed release on file with us before we are able to see a minor patient. Whoever accompanies the child to the visit is responsible for any payment that is due at the time of the visit. Divorce settlement/financial responsibilities must be worked out between the parents before the time of the visit.

PAYMENT AND INSURANCE

Payment for services is due at the time of your appointment, and your account must be settled at each visit. You can pay with cash, credit card or check.

Beaches Pediatrics participates in most commercial insurance plans as well as many Medicaid plans. If you are not using insurance, or if you are using insurance and will be billing your insurance carrier directly for reimbursement, your payment will be the entire cost of the service rendered. If you have a standard insurance plan, you will pay a fixed cost determined by the insurance company. **INSURANCE IS A CONTRACT BETWEEN YOU AND YOUR INSURANCE COMPANY. WE WILL NOT BECOME INVOLVED IN DISPUTES BETWEEN YOU AND YOUR INSURANCE COMPANY. YOU ARE RESPONSIBLE FOR THE TIMELY PAYMENT OF YOUR ACCOUNT.** You are responsible for the payment of all non-covered services as well as unmet insurance deductibles. If you have questions about what services are covered, please contact your insurance company. If you have other questions about insurance and billing, please ask at the front desk.

If you have a credit on your account you may choose to use it at an upcoming appointment; otherwise, credit balances will be reconciled in accordance with the our policies and procedures and refunded.

AVOIDING UNPAID BALANCES

We want this practice to be here to care for our patients for many years to come. One way we can do this is by minimizing expenses associated with billing and collecting so that we can focus on providing extraordinary pediatric care. For this reason, we require that your account be settled before and after each visit. If adverse circumstances temporarily interfere with your ability to pay your entire balance, Beaches Pediatrics, at its discretion, may take no action for 30 days. After 30 days, your account will be assessed an additional charge and will begin incurring interest charges. If your account becomes delinquent and we are forced to turn your account over to a collection agency or attorney for collection, the financially responsible party must pay the collection agency's fee and all costs of collection, including reasonable attorneys' fees. Currently, our collection agency charges 30% of the account balance. By seeking treatment at Beaches Pediatrics, you agree to these provisions.

FEE DISCLOSURE FOR NON-COVERED COSTS

Many services that our patients need are not covered by insurance. Letters and other paperwork, consultations with lawyers or other professionals, obtaining prior authorizations for medications or procedures are just some of these services that are of considerable value to our patients. This type of work, once an infrequent inconvenience, now requires a substantial amount of a staff or physician's time outside of scheduled appointments. Often this work requires an additional two hours to a full day of time.

Therefore, since January 1, 2010, there has been a charge for these non-covered services. In lieu of these individual charges, you may elect at the beginning of each calendar year to pay a one-time charge of \$120 per child. This charge will be prorated for new patients joining the practice after January 1. These charges may not be covered under your insurance.

Some of the procedures recommended at routine well and sick visits may not be covered by your insurance policy. You will be responsible for these charges. Please review your policy before your visit so that you are aware of your insurance coverage.

Professional Services (rates vary depending on the provider performing the service):

Letters to employers, schools, lawyers, etc. \$75 per hour

Disability, FMLA, etc. paperwork \$75 per hour

Comprehensive chart reviews \$250 per hour

Consultation with schools, lawyers, parents, etc. \$250 per hour

Office Services and Fees:

Medical Records to non-providers, or additional sets to providers \$1.00/page first 25 pages, then \$0.25/page (as per state law)

Returned checks \$35.00

Immunization and school/camp/sports forms \$0 at time of well visit--otherwise \$10/form

ASSIGNMENT OF BENEFITS FOR INSURED PATIENTS

I authorize Beaches Pediatrics to bill my insurance company directly for services rendered to my child or me. I authorize the insurance company to send payment for services directly to Beaches Pediatrics. If my insurance company does not pay for any reason, then I agree to be responsible for payment.

RELEASE OF RECORDS FOR BILLING PURPOSES

I authorize Beaches Pediatrics to release to third-party payers, or collection agents information needed to process my insurance claim or collect overdue balances. I understand that such information may include details of my medical evaluation and treatment. As part of the medical record, the following information will be released unless stricken: sexual abuse information, drug and alcohol abuse information, psychiatric information and AIDS/HIV information.

I have read, understood and agreed to the above policies.

Name of patient or guardian (if patient is under 18)

Signature of patient or guardian (if patient is under 18)

Date
